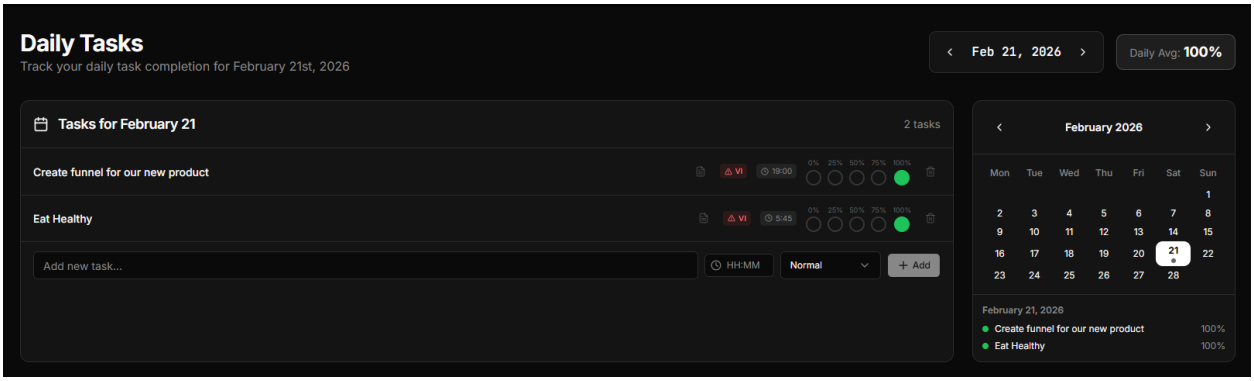
Change

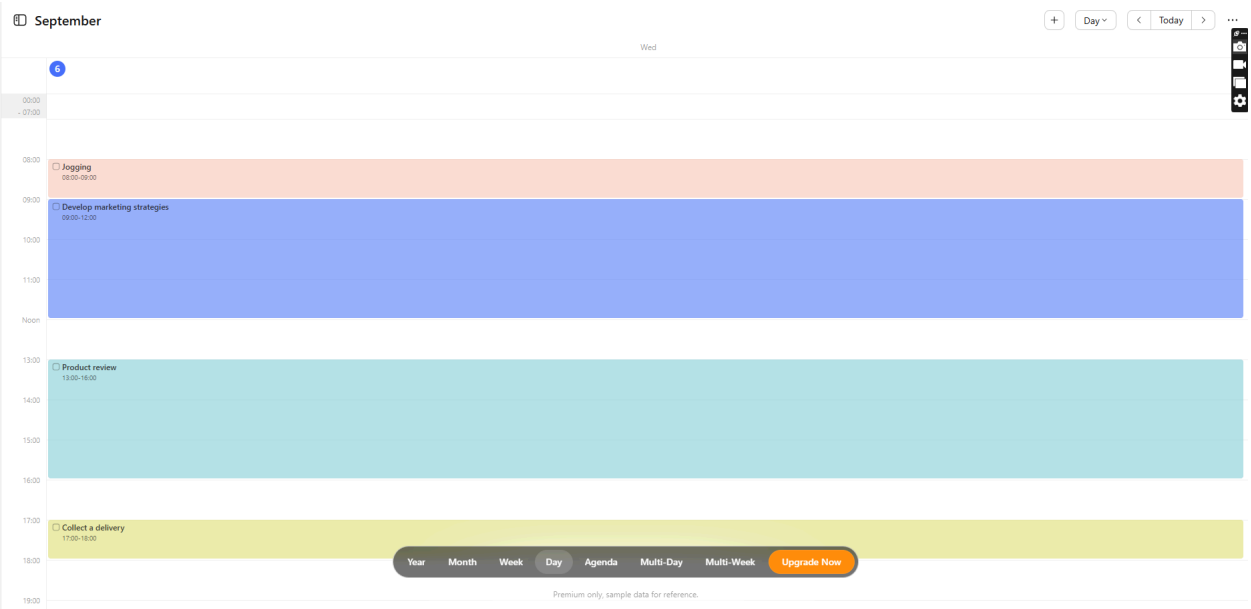
Please make this change properly becuase it is very harder .

In this Daily Task section there need to be 2 option people can choose from

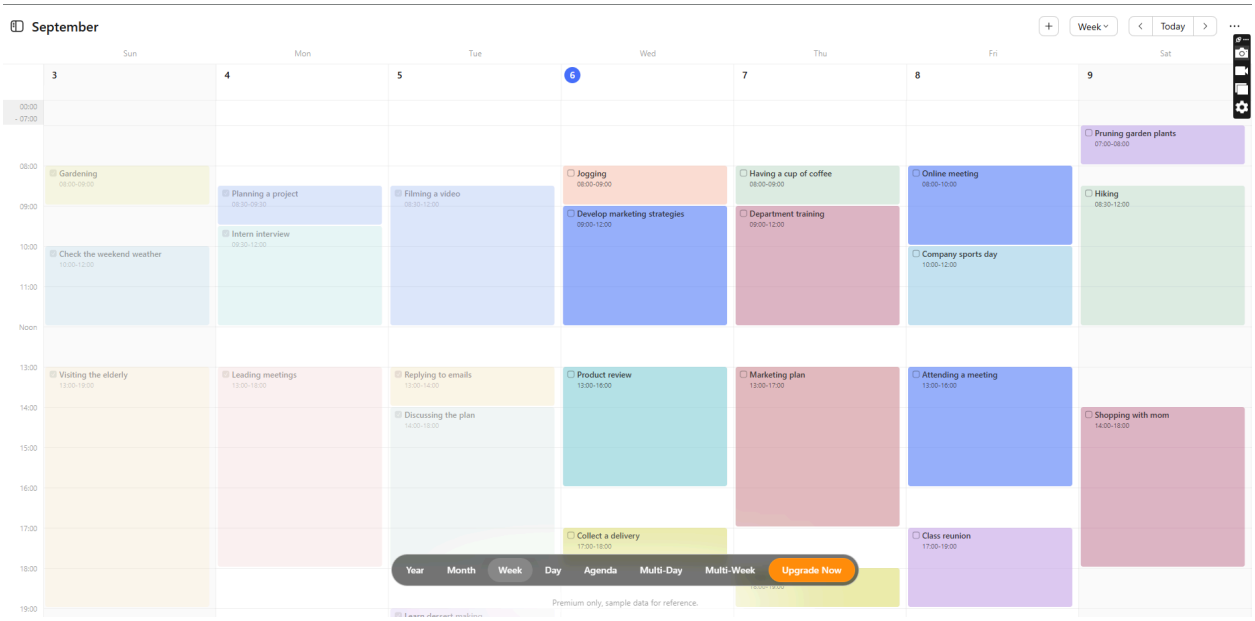
1. Task

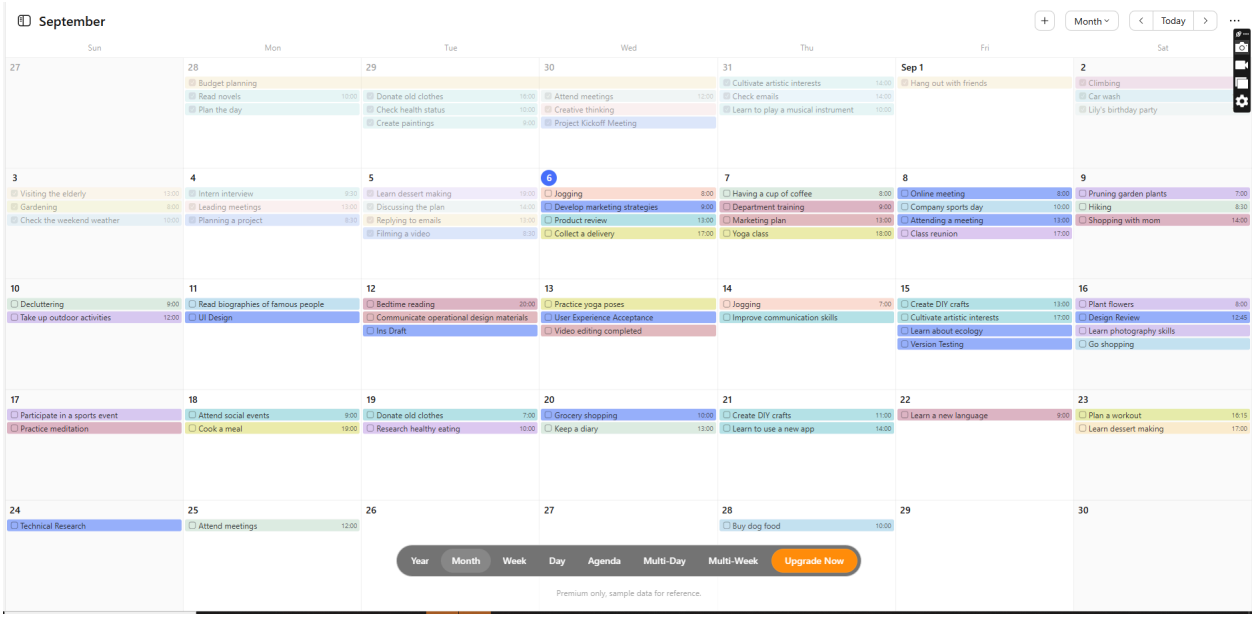


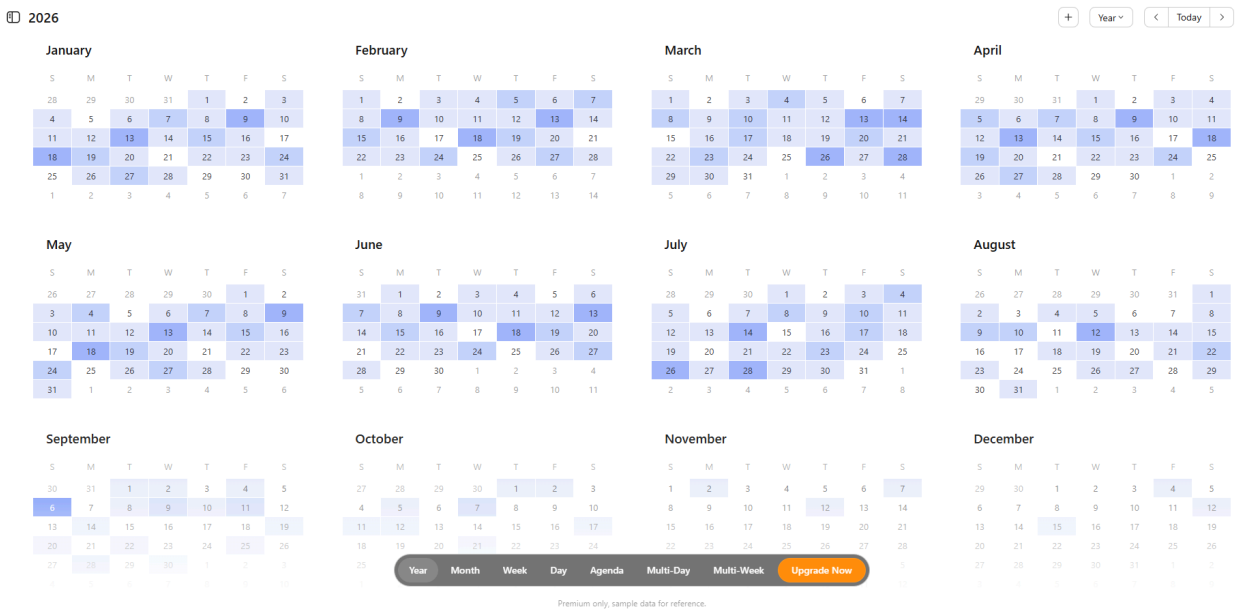
2. Second is that calender



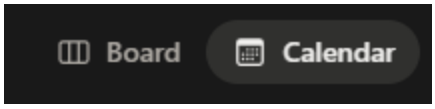
There need to clearily like this Day,week,month and year . no need of other things







Where to place this calender



like this above when we click the daily task there need to be 2 option Board or calender instead of board we will write task and let the claender be the same . people can choose any one of the this to write down thetask

Only this change i required the belwo parameters need to be same .
